Leaders in Investment Funds Administration & Accounting Services 2026

CHILIN GLOBAL

Located in Ébène Cybercity, ChiLin Global is an internationally connected fiduciary and fund administration specialist supporting clients across Africa and global markets. The firm has established itself as a trusted, client-centric partner in the fiduciary sector, playing a key role in supporting Mauritius's investment ecosystem by helping clients establish well-governed, transparent, and sustainable structures that facilitate investment and business growth. Founder and Group CEO Rodny Kevin Allagapen told us more below.

The story of ChiLin Global began with a simple objective: to provide practical, reliable, and high quality fiduciary services delivered by people who genuinely care about their clients' success. Regulated by the Mauritius Financial Services Commission, the firm provides fiduciary business services that range from company setup and administration to accounting, tax compliance, directorship, company secretarial, and private wealth clients.

Though its headquarters lie in Mauritius, ChiLin Global also operates a representative office in New York and is a member of the PrimeGlobal association. This global presence enables the firm to support clients across Africa, Asia, Europe, and the United States. This combination of local expertise and international reach allows ChiLin Global to deliver solutions that are both commercially practical and aligned with evolving regulatory requirements.

"What distinguishes ChiLin Global is our ability to combine technical expertise with a relationship-driven approach, providing clients with practical guidance and long-term support as they navigate increasingly complex investment, governance, and fiduciary requirements."

Whilst ChiLin Global has evolved through the years, what has remained constant is its team's commitment to building long-term relationships with clients. Its team wholeheartedly believes that understanding a client's business is just as important as understanding the regulations that govern them. By taking the time to learn each client's objectives, challenges, and ambitions, ChiLin Global provides dedicated services and solutions that go beyond compliance to support long-term success.

This has proven successful, with 2026 representing an important period for ChiLin Global. The firm has expanded its fund administration business while strengthening its corporate and fiduciary services to support increasingly sophisticated investment structures and a growing international client base. This year, ChiLin Global has invested significantly in its internal systems, governance frameworks, and technology platforms to enhance the quality, efficiency, and scalability of its service delivery.

As part of its broader commitment to developing Africa's investment ecosystem, ChiLin Global has entered into strategic service arrangements that allow it to support emerging fund managers, including initiatives focused on increasing access to capital for women-led fund managers and businesses. Through these collaborations, ChiLin Global provides governance, fund administration, and operation support that strengthen institutional capacity and create a foundation for sustainable growth.

On the client side, ChiLin Global has supported a number of investment initiatives across Africa. Striving to be a trusted partner and not just a service provider, ChiLin Global has helped clients establish well-governed, compliant, and sustainable structures that facilitate investment into the continent. Every successful structure it creates contributes directly to attracting capital, strengthening governance standards, and supporting economic development across Africa.

Reflecting on this monumental year, Kevin shared, "These achievements, together with the continued growth of our assets under administration and expanding service offering, reinforce our commitment to building a trusted, future-focused fiduciary business that delivers lasting value to our clients and stakeholders alike."

"With estimated assets under administration exceeding USD 4 billion and a diversified client base spanning multiple jurisdictions and sectors, we remain committed to delivering responsive, technology-enabled, and fully compliant services."

The next phase of ChiLin Global's journey is centred on sustainable and exponential growth. In the coming years, the team aims to strengthen ChiLin Global's position as one of Africa's leading independent fiduciary, corporate, fund administration groups and third-party fund accounting service provider. Whilst organic growth remains important, the firm is also actively exploring strategic acquisitions and partnerships that complement its expertise, broaden its service offering, and enhances its presence in key markets.

Equally important to ChiLin Global is continued investment in its people, as the firm believes that its long-term success is driven by the talent, commitment, and professionalism of its team. Certainly, this team has seen significant success this year, culminating in ChiLin Global's recognition as Leaders in Investment Funds Administration and Accounting Services 2026.

"This year marks an exciting chapter in ChiLin Global's growth," Kevin concluded. "While we are proud of the milestones we have achieved, we remain firmly focused on the opportunities ahead and the role we continue to play in supporting cross-border investments and economic development across Africa."
